Kenya’s Bowling History

The first bowling alley in Kenya was built in Nairobi, and it quickly became a popular destination for locals and expatriates alike. Over the years, several other bowling alleys were built in different parts of the country, including Mombasa.

In Kenya, tenpin bowling is primarily played as a recreational sport, although now there are also several competitive leagues and tournaments that are held throughout the year. Today, tenpin bowling continues to be a popular activity in Kenya, with many people enjoying it as a fun way to socialize and stay active.

Cont…

In 2013, bowling was actually non-existent in Kenya since there were 0 bowling alleys. However, in 2017, the game was reintroduced and has since become a growing sport in the country.

Currently, there are several leagues and tournaments ongoing all around Nairobi, and this is attributed to the growth of the professional sport it is becoming. Bowling is a growing sport and we have the vision to fly Kenya's flag internationally also under the sport of bowling.

continued…

PlayMasters have been crowned league champions on multiple occasions in 2023, and have also dominated the singles and doubles tournaments.

We have been able to add two more teams under the PlayMasters brand, PlayMasters Warriors & PlayMasters Ladies, which has allowed us to increase our squad size, and also increase our overall exposure as a franchise in the Kenyan bowling fraternity

continued…

The introduction of the PlayMasters Ladies team was aimed at boosting the ladies sport, and with the vision that more playtime will give them more experience and growth, they exceeded our expectations and performed at an incredible level winning a plate cup and coming second in the other plate cup.

In addition, we have been able to support a junior bowler, who has progressed remarkably well, and only at the age of 10 years old is holding a personal best of 165 and winning a juniors tournament.
